**Subject:** APPLICATION (23/1380/OUT)

I am writing to strongly object to this planning application.

It's quite unbelievable that just yesterday I saw an advert in the city about sustainability and our green spaces — when all Exeter Council seem to be doing is building and approving building all over our green sites and parks.

Building more houses in Stoke Hill will mean more traffic, more pollution for our kids, less wildlife and less green space in this increasingly over crowded city. Air pollution from increased number of cars, loss of skyline, loss of peace in a quiet calm area. One field affects another, the disturbance of wild life and loss of habitats cannot be mitigated against. Once the creatures have fled they do not return.

This is a re-submission of plans that were thrown out a couple of years ago and once again I object.

Regards  
Jacqui Draycott
