Hello

As discussed, I am not totally sanguine about a 10.30pm finish but will accept it given the temporary nature of the consent.

Please could you include a condition which ensures that amplified music ceases at 10.30pm except on the nights of Christmas Eve and New Year's Eve when they can continue until 00.30.

This relies on the church managing noise levels to be no greater than those assessed by the acoustic consultant. It appears from the report that they are unlikely to do so, and given the variability in noise from music, I don't consider that setting a noise limit is practical or necessary. I believe that the church are aware of the implications of noise complaints and will seek to avoid these.

Thanks,
