Subject: Objection Ref 23/1380/OUT

Dear Mr Cummings

I am writing to express my strong objection to the proposal for new homes in the area of farmland from Stoke Hill barn towards Micinlake Park. As a resident of Elliott Close, I am deeply concerned about the potential negative impact this development could have on the community.

First and foremost, there is no infrastructure in place to support additional housing units in the area. The proposed development would place undue demand on already overstretched resources, including general practitioners and schools. Furthermore, the recent construction of new houses near Morrison's has already increased traffic congestion in the area, making the road even busier and creating safety concerns for residents.

The area in question is a beautiful and scenic area that should be preserved for future generations to enjoy. The audacity of the farmer to continue applying for planning permission despite repeated rejections is truly baffling. It is clear that this development is not in the best interest of the community or the environment.

I urge you to carefully consider the impact of this proposed development on our community and to reject the farmer's application for planning permission. We must prioritize the preservation of our green spaces and natural habitats for the benefit of current and future residents.

Thank you for your attention to this matter.

Sincerely,
Dr Lisa Grundy
